

Dr Moz as we call him joined the team in 2016, after acquiring his Fellowship with the Royal College of General Practitioners.

Moz enjoys developing relationships with his patients, where they trust he will always do the best by them. Whilst he is a generalist, he does have particular interests in Women's health and shared maternity care, cosmetics, skin cancer, circumcision and Respiratory medicine. He has managed to fit a Masters of Skin Cancer in his life and was such a valued candidate that the University of Queensland invited him back on as a Lecturer for other Masters students!

When not working, Moz enjoys spending time with his family including his beautiful wife and 2 gorgeous little girls and getting stuck right into his garden!

MBBS, FRACGP, MMed (Skin Cancer)
