

# the local doctor.

Dr Mais Ali graduated from medicine at Flinders University in South Australia, after obtaining an Honours Bachelor degree in Science from the University of Toronto, Canada. Dr Ali then moved to Melbourne to commence her medical career. As one of Melbourne's distinguished medical and cosmetic GPs, Dr Ali is passionate about sharing her knowledge and innovative techniques with her patients.

Dr Ali has undergone extensive training in cosmetic medicine, general dermatology, and skin cancer medicine. She provides a holistic and individualised approach to solving areas of concerns using the science of medicine. Dr Ali's focus has been:

- Skin problems: such as rosacea, acne, eczema and pigmentation to name a few
- Rejuvenation: non-surgical rejuvenation of the face utilising anti-wrinkle injections, dermal fillers, bio-remodelling filler, laser, skin care and peels. She can help in multiple ways by establishing an effective and sustainable skin care routine, utilizing energy devices and using injectables in multiple forms when required.
- Menopause: supportive measures to help lessen the impact of the physical and mental symptoms of menopause
- Intimate Health: presenting solutions to address common physical discomforts and symptoms, which support how you value and feel about yourself

Dr Ali takes her time with each patient to understand, listen and explain the available options to address the patient's concerns. She creates a treatment plan individual to each patient by using a multimodal approach to achieve their desired goals.

Dr Ali is passionate about empowering people to achieve their best self and best skin. She believes in "healthy you is beautiful you" is an integral part of wellbeing and a massive confidence boost.
