¹ GAP payment refers to the out of pocket cost to the patient, which is the difference between the practice's private consultation fee and your Medicare rebate. Please note patients without a valid Medicare card will have to pay the full private consultation fee

² Concession rates only applicable until Medicare threshold has been met, then standard consult fees will apply

³ Please ask reception for cosmetics prices for filler, botox and laser treatments

⁴ Please note: There will also be rebate items charged once your histology results are back. You will receive majority of the cost of these items back from Medicare.

Do not hesitate to ask our helpful staff for clarification.
